

Wire Cloth Uses

Although there are many uses for wire cloth, it is rarely seen. Industrial wire cloth is considered a component for equipment that has a need for filtering, separating, straining, sizing, diffusing, providing structure, etc.

- Electromagnetic Field (EMF) Shielding
- Low NOx Applications
- Heat Conductor – Roof / Gutters
- Medical (ie. Stints)
- Straining
- Diffusion – Liquid, Gas
- Sizing of crush material
- Explosive testing
- EMI/RFI Shielding
- Fuel Cells
- Filtration – Liquid / Gas
- Gas Burners
- Safety and Protection
- Baskets for dipping
- Structure
- Blast Containment
